INDEX OF SUBJECTS

(Page numbers in italics refer to abstracts)

- Acetazolamide**
renal lesions after, 140
thrombocytopenia after, 304
- Acetylcholine**
atrial fibrillation from, 301
in epinephrine arrhythmias, 472
Acetyl-digitoxin, effects of, 474
Acetyl strophanthidin therapy, 948
ACTH and cortisone, in rheumatic fever, 225-229, 309, 615
in children, 616
streptococcal antihyaluronidase and antistreptolysin titers after, 309
- Adrenal cortex**
in diabetic retinopathy, 781
effects of renal hemodynamics, 952
steroids, cardiotonic activity of, 947
- Adrenalism**, hyperactive, from steroid therapy in rheumatic fever, 225-229
- Adrenergic blocking drugs**, 47-53
- Age factors in hemoglobin level** in congenital heart disease, 133
- Aging**
arrhythmia after thoracic surgery, 144
arterial, and hypertension, 827-834
drug effects in, 949
metabolic responses in cold environment, 313
peripheral vein diseases, 791
vascular skin lesions, 619
- Airsickness**, and head immobilization, 314
- Aldolase level** in myocardial infarction, 942
- Aldosteronism**
from adrenocortical hyperplasia, 781
and arterial hypertension, 467
- Alkalosis**, respiratory, potassium elevation in, 951
- Allergic heart disease**, 794
- Altitude**, effects of, 313
- Alveoli**
oxygen tension, and arterial oxygen saturation, 314
pulmonary, studies in mouse, 468
walls in mitral stenosis, 64-67
- American Heart Association**
annual report (1956), 624
applications for research support, 956
Arteriosclerosis Society
abstracts, 477
new officers, 151
award winners, 625-630
awards, 624
Blakeslee award entries, 476
California fellowships, 477
cardiovascular research training program, 151, 476
- Conference proceedings published, 624
congenital cardiac defects, 631-638
Denver fellowship in cardiopulmonary physiology, 797
electrocardiographic interpretation course, 956
fellowships and research grants available, 150
Ferris appointment, 476
film of heart beat disorders, 316
Heart Fund (1957), 150
High Blood Pressure Council leaders, 317
Inter-American Medical Convention in Panama, 477
leaflet for hypertensives, 316
London Harvey Tercentenary, 151, 796
meetings calendars, 152, 317, 624, 798, 957
Michigan conference on hypertension, 624
National Health Forum, 151
National Office, 796
New materials issued, 796
Ohio fellowships, 477
physicians honored, 317
rheumatic fever prevention, 316
Scientific Sessions (1956), 317
Scientific Sessions (1957), 316, 476
commemorating William Harvey, 795
memorial lecturers for, 956
UN statements on radiation effects, 477
Utah Heart Association, 317
Wisconsin Conference on Work and Heart, 150, 797
World Conference in Brussels, 152
- Aminopherase**. *See* Transaminase
- Aminophylline**
in circulation time studies, 451
effects of, 113
rectal, plasma theophylline after, 949
- Amniotic fluid**, fatal pulmonary embolism from, 468
- Amyl nitrite**, in circulation time studies, 451
- Anaphylactic heart lesions**, experimental studies, 303
- Anastomoses**, comparison of methods, 144
- Anemia**
cardiovascular disturbances in, 373-377
circulation time in, 456
- Anesthesia**
digitalis with, 305
dolitron, effects of, 305
heart sounds in, 138
hemodynamic effects of, 301
hypotensive techniques, 143, 617
hypothermia. *See* Hypothermia
- Aneurysms**
aortic, 141, 483-490
abdominal, 483
and right renal artery, surgery in, 148
arch, total excision in, 145
ascending, fusiform aneurysm, 790
dissecting, 618
healed, 540-545
shock in, 955
excision of, 145, 310
sinuses, syphilitis, 620
thoracic, 485
with giant-cell arteritis, hormone therapy in, 148
renal arteriovenous, 149
splenic arterial, ruptured, in parturition, 149
- Angina pectoris**
changing patterns in, 943
choline theophyllinate therapy, 943
in myocardial infarction, 199
therapeutic agents, 405-412
U wave in, 106
- Anginal pain**, in pulmonic stenosis, 258-265
- Angiocardiography**
in cor triloculare biatriatum, 707
in intrathoracic tumors, 616
in left-to-right shunts, 952
in mitral and aortic insufficiency, 784
percutaneous, of aorta, 149
and polytomography, 953
- Angiography**
cerebral, 952
complications during, 146
renal, tolerance to contrast media in, 616
- Angiosarcoma**, pericardial, 141
- Anoxia**, neurologic tolerance to, 306
- Anxiety**, consequences of, 313
- Aorta**
aneurysms. *See* Aneurysms, aortic
atherosclerotic, lipoproteins extracted from, 936
calcification in syphilis, 784
coarctation
and congestive failure, in infancy, 133
electrocardiogram in hypertension with, 940
depressor reflexes from nerve fibers, 949
dilatation index, 310
emboli, fibrinolytic enzymes affecting, 145
insufficiency. *See* Insufficiency, aortic
intima
studies in atheroma, 366-371
trauma, cholesterol affecting tissue repair, 610
percutaneous angiocardiology of, 149

- Aorta** (*Cont'd*)
 stenosis. *See* Stenosis, aortic
 thoracic
 obstruction of, collateral circulation in, 148
 surgery of, hypothermia and hypotension in, 143
 valvular disease, 471, 930
 valvuloplasty, 932-934
 vascular grafts, 617
- Aortic arch**
 coarctation, resection of, blood pressure changes in, 296
 experimental replacement of, 311
 thrombotic obliteration of branches, 237-244
- Aortico-coronary** sinus anastomosis, effects of, 940
- Aortico-pulmonary** defect, congenital, closure under refrigeration, 311
- Aortography**, thoracic, with radiopaque polythene catheter, 616
- Apresoline** therapy in hypertension, 779
- Arctic** climate affecting electrocardiogram, 464
- Arm**, tired arm syndrome, 794
- Arrest**, cardiac, treatment of, 307, 594
- Arrhythmia**
 digitalis glycoside in, first heart sound after, 308
 electric and mechanical systoles in, 135
 in older age group, after thoracic surgery, 144
 procaine amide in, 120-122
- Arteries**
 aging of, and hypertension, 827-834
 carotid cavernous fistulas, 618
 coronary
 anomalous, 461
 in aortic stenosis, 933
 arteriography, 616
 changes after aortico-coronary sinus anastomosis, 940
 changing patterns in angina pectoris, 943
 cholesterol, diet, and racial factors in disease, 135
 diabetic cardiac patient, 134, 297
 hexamethonium in insulin-induced hypoglycemia and angina pectoris, 613
 myocardial infarction. *See* Infarction, myocardial
 myocardial ischemia with, 612
 pressure, 782
 sclerosis in younger age group, 612
 serologic tests for inflammation, 297
 surgery in, 311
 transaminase activity in disorders, 134, 324-333, 613, 941
 U wave in disorders, 105-110
 grafts. *See* Grafts
 hepatic, inflow in hemorrhagic shock, 950
 mesenteric, inflow in hemorrhagic shock, 950
 occlusion, acute, 791
 oxygen saturation and alveolar oxygen tension, 314
 pressure. *See* Blood pressure, arterial
 pulmonary
 absent, in Fallot's tetralogy, 938
 atresia, in Fallot's tetralogy, 939
 in cor triloculare biatriatum, 708
 distensibility in mitral stenosis, 789
 pressure in mitral stenosis, 430-433
 stenosis. *See* Stenosis, pulmonary, arterial
 thrombosis, 146
 and chronic cor pulmonale, 145, 147
 weight of, in sclerosis and hypertension, 468
 renal
 aortic homografts, 786
 percutaneous catheterization of, 149
 right renal, in aneurysm of abdominal aorta, 148
 subclavian, carotid-body-like tumor of, 792
 wall movements in atriorentricular block, 139
- Arteriography**
 coronary, 616
 intra-arterial Diodrast and Urokon in, 472
- Arteriosclerosis. See** Atherosclerosis
- Arteriovenous**
 fistulas
 acquired, surgery in, 954
 of renal vessels, 149
 shunts in lung, 301
- Arteritis**
 giant-cell
 with aneurysms, hormone therapy in, 148
 of legs, 148
 obliterative
 brachiocephalic, 845-849
 in supra-aortic trunks in young women, 147
- Artificial** kidney, 285-293
- Aschoff-body-like** granulomata, induction of, 303
- Asthma**
 bronchial, circulation time in, 455
 cardiac, pulmonary function in, 492-500
- Atheroma**, aortic intima studies in, 366-371
- Atheromatous** emboli, and renal hypertension, 465
- Atherosclerosis**, 146
 arterial homografts in, 21-29
 auscultatory gap in, 850-853
 beta-lipoprotein levels in, 31
 cholesterol levels. *See* Cholesterol
 fat emulsion infusion studies, 609, 889-895
- idiopathic hyperlipemia with, 937
 infantile, 936
 lipoprotein metabolism after radiation, 609
 lipoproteins extracted from aortas, 936
 of lower limbs, grafts in, 145
 in myeloma, 620
 pathogenesis, 609
 sodium 2-phenylbutyrate in, 937
- Atria**
 dissociation, 883-887
 fibrillation. *See* Fibrillation, atrial
 left atrial volume in mitral stenosis, 430-433
 movements in mitral disease, 616
 pressure, and pulmonary vascular changes, 949
 pressure pulses in mitral valvular disease, 470
 septal defect, 186-191, 940
 in adults, 186
 closure of, left ventricular failure after, 568-573
 in infants and children, 191
 pressure relationships after closure of, 568-573
 triatrial heart, surgery in, 954
 uniatrial fibrillation, 883-887
- Atriomegaly**, extreme bilateral, 434-440
- Atrioseptopexy**, 787
- Atrioventricular**
 arrhythmia
 mechanism, 469
 premature beats, 462
 block
 arterial wall movements in, 139
 sodium lactate in, 591
 tricuspid valve closure in, 138
- Audiovisual** perception of cardiac vibrations, 481-482
- Auscultatory** gap in arteriosclerotic heart disease, 850-853
- Axillary vein** occlusion, anticoagulants in, 312
- Ayerza's** disease, 35
- Azapetine**, effects of, 48
- Ballistocardiography**
 aperiodic, as function of age, 944
 cigarette test, 462
 compared to phonocardiogram, 777
 elongation, 298
 measure of fidelity, 280-284
 preoperative, 943
 in valvular heart disease, 138
- Beck** operations for coronary heart disease, 310
- Benzodioxane** test for pheochromocytoma, 9
- Beta-lipoproteins**
 dietary carbohydrates affecting, 619
 differential effects on, 31-33
- Biopsy**, pericardial, in diagnosis of pericarditis, 778
- Blood** coagulation
 anticoagulants in idiopathic occlusion of axillary vein, 312

- coagulability and thrombosis, 296
- fats affecting, 274-278
- hemolytic reaction after intravenous mephyton, 133
- hemophilia, 938
- hemorrhagic thrombocytopenia, 938
- platelet serotonin content factors, 353-356
- proconvertin test, 296
- vitamin K₁ in hypoprothrombinemia, 938
- warfarin sodium, in anticoagulant therapy, 938
- Blood flow**
- coronary
- and cardiac contraction, 14-19
